**Disclaimers:**

-Colors in the table above are mentioned with their generic names, without any commitment from manufacturer side to a specific color variation, shade or intensity or any other possible generic or specific definition of color. Manufacturer reserves the right to change colors at any time inside the generic ranges defined by the above names.

-These strings are designed and made to be used with poundage on finger proportional to the number of strands. Using strings this riser continuously over that limit (generally defined as 3# per strand) voids the warranty and manufacturer shall not be liable for any damage to the bow or injury happening to user. Duration of the string and its serving material will depend from the way of use and real poundage applied to the string.
